

Kamp

Kanawana

DIRECTOR'S ANNUAL REPORT

KAMP KANAWANA 1976

DIRECTOR'S REPORT

Kamp Kanawana 1976 has come to an end. It was personally my best of the last four years at Kamp. I have many fond memories of the past summer. There were, of course, the usual ups and downs as we progressed through the eight weeks.

In this report, I will try to give the reader my honest impression of this summer at Kamp Kanawana as well as indicate some of the areas requiring attention for '77.

KAMPERS

This summer we worked with 480 different children from six different provinces and seven different countries. The YMCA sponsored more than thirty underprivileged children this summer.

Our registration surpassed our budgeted amount of 1250 camper weeks with a total of 1358 (1356 in '75 and 1264 in '74). Our returnee rate decreased slightly to an average of 44.8%.

See Appendix A.

STAFF

The Kamp Kanawana '76 staff had to be one of the best, if not the best of many years. The average age of program staff increased to 21.6 years with a returnee rate of 63%. It is noteworthy to mention that 28 out of 51 program staff had their bronze medallion lifesaving (R.L.S.S.) or better.

For various reasons, four staff members resigned during the summer. This is not new or unique to Kamp Kanawana. However, I accept this as one of the current difficulties with Kamp staff recruitment.

A special thank you to my assistant Andy Elliot for his patience, support and hard work this summer. This was Andy's first time in this capacity for which he deserves a lot of credit. I know from past experience that it was not easy. Merci Andy!

The majority of the staff did excellent jobs with our kampers this summer. Their patience, determination and mature outlook on their work made this summer's staff team a most effective one. My sincere thanks to them for a huge job well done.

STAFF TRAINING

4

The pre-kamp training program this year was more condensed than in previous years. It proved successful as it prepared the staff as well as it was possible in seven days. It also quickly developed a Kamp spirit.

A few suggestion for next summer:

- again insist that all staff participate in all sessions.
- have only one day between the end of pre-kamp and the arrival of the kampers (i.e. lengthen it).
- more first aid, child psychology, lifesaving.
- have a longer canoe trip.
- bring back the sessions in St. Hilaire (my fault I contacted them too late).

In addition, we sent the following to training programs:

- Rob Wiltshire, Woodsmanship School, Toronto
- Nancy Sawyer, Canoe Tripper's School, Toronto
- Misty McKay, Vermont Ecology School, Vermont

This support should be continued as much as possible in the future.

PROGRAM AREAS

(For more detail, see the Assistant Kamp Director's report and that of the staff involved and also survey of kampers) See App. B.

Arts & Crafts:

Stewart Sandmark and his assistant Wendy Prince did an excellent job with our Arts & Crafts program this summer.

Stewart's talents together with the acquisition of some new equipment encouraged kampers to develop their artistic skills.

The program included:

- making and/or finishing paddles
- carving birds, wooden decorations, games, candle holders, etc.
- making furniture
- sketching and painting
- string art
- macrame, etc.

I cannot help but praise and thank Stewart and his crew for a job well done.

Folk Dancing:

This program was expertly led by Claude Boucher and Francine Gagne. Many kampers, particularly the girls enjoyed learning many old French Canadian dances.

Kampcraft:

It was good to see kampers baking bread, making fires, setting up shelters, etc. in our kampcraft program this summer.

My thanks to Rob Wiltshire and his kampcraft staff for a great program.

Naturelore:

Our naturelore program headed by Adele 'Misty' McKay improved greatly over recent years.

With more emphasis on the Kamp's part, it should continue in that direction in the future.

Orienteering:

Last year's very popular program continued under the direction of Rob Darker. A great number of kampers participated and received Orienteering awards throughout the summer.

Judo:

This was a new interest group this year headed by Jeff Dubney (Westmount Y Judo Instructor). It was well received by a small number of kampers and could be considered in the future.

If it is to take place, at least 16 mats (rather than 6) will be required.

Drama:

Headed admirably by Steve Davies and Robin Siegerman, a small number of kampers enjoyed the preparation, rehearsal and presentation of several small plays in the dining hall.

Archery:

Kevin Holgate directed this interest group. The main requirement for next year is proper targets.

Sailing:

Once again, our Sailing Director Dave O'Donnell was involved with the teaching of many kampers the skill of sailing. The addition of three more Snarks as well as Dave's ability to maintain the boats (and canoes) helped to make the program run smoothly.

Canoeing:

We were fortunate to have Rob Dewar return to Kamp Kanawana as our Canoeing Director. His expertise (and qualifications) in canoeing improved the program tremendously.

Rob and his instructors should be congratulated for the quality and quantity of instruction that took place at the canoe slip this summer.

Boating:

Due to the other aquatic alternatives present at Kamp our Boating Instructors Philip Ching and Helen Caravolas did a good job with a small number of participants in this instruction.

Waterfronts:

The senior and junior waterfronts were directed by Kathy Livingstone and Steve Bauman respectively.

Unfortunately, the weather was never very cooperative and this made the various water instructions difficult to complete. Nevertheless, both did a fine job and many kampers went home thrilled with the accomplishment of learning how to swim. Thanks to them both for a job well done.

It is worth noting that under Coach Elliot, our Kamp Kanawana 'Swim Team' won the 1976 Camp Pembina swim meet (with 4 other camps). Congratulations to all involved!

The only disappointment would be the fact that not one of our C.I.T.s completed the Bronze Lifesaving course.

Hike & Trip:

What a summer it was! After over 14,000 miles on the Kamp van in 7 weeks, over 85 trips were sent out. These included the 'local' trips on Kamp property to extensive canoe trips in such areas as Papineau-Labelle Park, Manawan Indian Reservation, Kempt Lake, 31 Mile Lake, back packing trips to Mont Marcy in Vermont and war canoe trips from Mont Laurier to Ottawa and then Ottawa to Montreal.

The program was boosted with the addition of several more canoes as well as various equipment from Wilderness Survival Camp.

The direction of the Hike and Trip program came again this year from Dick Mischook. Considering the weather and the once again increased popularity of tripping he and his staff did an even better job this year in coping with the demand.

I am sure many staff and kampers share my opinion and thank Dick and his crew for the fine tripping program this year.

This summer was the first for the new Kamp Kanawana award "Order of Owens". This was presented by Norrey Owens to the kamper who best exemplified the qualities and attributes of a tripper at Kanawana. My congratulations to the tripper of 1976, Doug Peets.

General Program:

For the first part of the summer, a 3 day rather than daily method of scheduling was used. In theory, the idea is good but in practice, never really worked. Hence, the daily method should be used next year.

I and some other staff have doubts about the validity of the Lumbermen-Voyageur program. It is a very different style (i.e. ultra competition) of program as compared to the regular Kamp Kanawana programs. It also interferes with the best of the tripping season. Its continuing should be thoroughly discussed and decided this winter.

Questions have been raised in regards to Kamp Kanawana on co-educational programs. The amount (or lack thereof) of co-ed programs has been gauged by myself. I suggest a group of staff develop some sort of recommendations for our operation next summer.

At times, the staff had difficulties with some of our eight week kampers. Either the program for these must be improved or we should limit a stay to four weeks. This should be looked at this winter.

We have had many years of experience with running Kanawana. However, we have not yet managed to develop a proper file of program resources and ideas, etc. This should be one of the program priorities in preparing for Kamp Kanawana '77.

COUNSELLOR-IN-TRAINING PROGRAM

One of our weaknesses this summer was the C.I.T. program. Unfortunately, our C.I.T. Director left Kamp after 4 weeks and many of our objectives for the program were not achieved. It is my opinion that the C.I.T.s this year did not gain from the program as in years past and consequently, not as many are ready to assume staff positions with Kanawana.

Itche Kerr took over the program and did an admirable job with sessions on group dynamics, skill programs, etc. I believe, if we are to continue with this or a similar program, some very serious questions must be asked before it is attempted again.

HEALTH & SAFETY

9

In spite of the summer being wet and cold compared to the sun of '75, we encountered fewer illnesses amongst kampers and staff.

There are, however, a couple of things to mention here - there was (as often happens in camps) a 'bug' at Kamp this summer. It had been diagnosed as viral meningitis and affected at least 19 people including myself. Three people at Kamp (2 being staff) were hospitalized for a minimum of 6 days.

This summer was the first time in many years that Kanawana had a Doctor (Seymour Blum) in residence. This very much eased the driving situation and the presence of a Doctor on the premises was reassuring. We should certainly attempt to have a Doctor at Kamp again next year.

Our Nurse, Sheena Maclean, did an admirable job in coping with the general running of the hospital as well as getting involved in other areas of Kamp. Thank you Sheena.

Some statistics from this summer:

Sprains	115
Sore throats & colds	255
Ear aches	45
Cuts & scrapes	281
X-ray trips	26
Snake bites	48
Gastritis	72
Fractures	7

FOOD SERVICES

Our kitchen had its share of difficulties this summer. For the first time in many years, we did not have to replace any of the staff in the kitchen with the exception of the Chef.

By the third session, we were on our fifth Chef with everyone from Ed Neal, our Nurse, our assistant chef and myself filling in. It was difficult for the kitchen staff but I think their more than usual involvement in Kamp program throughout the summer enhanced their enjoyment of Kamp Kanawana.

Due to the changes in the chefs, the menu altered throughout the summer as did the quality and quantity of food. I believe that at least a 30% increase in our food operation budget should be considered next year in order to help the staff and food situation in the kitchen.

BUSINESS OFFICE

The Business Office was well managed by Karin Deterding who has been on the staff since 1972. Her understanding and involvement with Kamp Kanawana made her a real asset to me. I thank her for a job well done.

Two things to note:

1. We should continue to keep the Business Office open all day for staff.
2. The beverages should be changed to some sort of nutritous juice or perhaps fresh fruit.

PHYSICAL SITE

Once again, Julien Tassé and his crew did a super job with maintaining dear old Kanawana.

Some of the things done include:

- completing construction of the 'T' on the junior waterfront.
- completing 2 wash areas.
- repairing and replacing balconies on the chief's cabin, lookout and grand portage.
- construction of an 'F' sailing dock.
- installation of an 'airaitor' sewage treatment plant in the girls section.
- installation of a new mixer and exhaust fan in the kitchen.

- installation of exterior lighting at the hospital, senior waterfront and Hike & Trip.
- installation of interior lighting in Arts & Crafts.
- repair and repaint 16 rowboats.
- repainting and reroofing the cabooses.

In addition to the above, is the regular maintenance and patching up of many other areas of Kamp.

With the future rebuilding plans of the existing site soon to become reality, some of the very major concerns should be taken care of in the future (i.e. water treatment plant, washroom facilities, longhouse, etc.).

There are, however, some things requiring attention before next summer and these should be studied, prioritized and started as soon as possible.

PROMOTION

Due to our relatively secure returnee rate and perhaps a better reputation in camping, we reduced our advertising spending from \$2,000.00 to \$120.00 this year.

The following was done this year for our promotional program:

- 2500 brochures were mailed or distributed through local branches.
- The 'Green Triangle' had six issues.
- A Kanawana 'Kalender' was produced and distributed to all last year's kampers and friends of Kamp. It was extremely well received (served as a Xmas card too!) and should be continued if time and money permit.
- On behalf of the Quebec Camping Association, the Kamp Director was interviewed on CFCF, CJAD and CBC radio stations as well as three Montreal newspapers.
- The Kamp Kanawana reunion was held in April with over 150 people attending.

SPECIFIC RECOMMENDATIONS

12

1. For the most part, the majority of staff should be rehired. There are a few who, for one reason or another, I would be apprehensive about rehiring.

For further detail on the above, the personnel confidential file at the Camp Office should be consulted.

2. The 3-day break was tried and didn't work. We should revert back to the day off a week for staff and forget about the break.
3. An attempt was made at post-kamp staff canoe trips this summer. It did not succeed due to our late closing. It should be considered again next year.
4. The rental of a large cargo truck (for luggage) on the third change-over proved to make the operation very smooth. If a part-time driver for such a vehicle could be found, it should be used at all change-overs.
5. I believe the increase in counsellor salaries this summer assisted us with our recruitment. This trend should continue next year.
6. Our staff, for the most part, cooperated in reducing kampers smoking. Next year, some sort of permission form with explanation of policies should be included in our information booklet.
7. Due to commitments at the Montreal Office, etc., I did not get around to see the staff as much as I would have liked. This must change next year.

CONCLUSION

13

I said at the beginning of this report that this was personally my best year at Kamp Kanawana since I began. For me it is not just the 2 months but also the 10 months prior that make it.

To our kampers, I shall always be indebted to you for it is you who make all this worthwhile.

To Julien and Olga - sincerest thanks. I don't believe that we would have done as well as we have without the dedicated work and continuous support of these two great Kanawanians.

To our Kamp staff - again many thanks for a huge job well done. I sincerely hope that you enjoyed your experiences this summer as I know your kampers did.

Respectfully submitted,

Derek V. Walsh,
Director of Camping.

APPRECIATION

The outstanding success year after year at Kanawana depends on many, many people beyond the staff of Kamp. Appreciation is expressed to the following for their contribution to Kanawana:

Ivanhoe Corporation for permitting us to use the parking lot of the Dorval Gardens Shopping Centre as the Montreal terminal for kamper transportation.

The staff of the Montreal YMCA for their continued encouragement and cooperation.

Our 15 C.I.T.s for their work and assistance at Kamp this summer.

Our many neighbours around Kamp who so willingly permit us to use their properties and assist us in many ways.

The Camping Branch Board of Management for their hundreds of hours of work in preparing Kamp Kanawana '76.

The group of Dental Hygienists who lectured our kampers on dental hygiene.

The Drug Companies who so generously donated medications and supplies for our infirmary, Frosst, Horner, Astra, Parke-Davis, Squibb and Burroughs-Wellcome.

The Montreal Copy Centre for the various free printings.

Andy Barrie and CJAD radio for the 15 minute story on Kanawana and our giant reunion.

Westmount, West Island and Downtown Branches for lending us their rooms for our meetings.

I'm trying to find a place, where
My mind can just let go
Of all the thoughts of hate, that
I am starting to show.

I've discovered a place, where
You can hear the breeze
It drifts quietly across the lake, and
Rustles through the trees.

I'm going to a place, where
I feel very free
To love, and live, and be myself
With people a lot like me.

I think you know the name, of
This place, that I love
But, just in case you're not quite sure
It's Kanawana I'm thinking of.

Kitti Luce

Kitti Luce wrote this poem this summer when she was
a senior girl camper.
